FOR SACQUE, Dec. 15.—Her hair prematurely gray, her face lined with suffering, Mrs. Johann Stein, a Russian refugee, reached Chicago yesterday. She and her two children went unscathed through the horrors of a massacre November 1 at Kremzug, near Odessa. One hundred and fifty Jews were killed and many more wounded.

Mrs. Stein and her children were hinden for hours under a featherbed in an attic, while the riotors went through their quarter of the city, pilaging, sizying, burning and ravishing. "It all seems a horrible dream," said Mrs. Stein, through an interpreter. "When I received my husband's letter containing our passage money to America I was filled with loy. Every day we expected to be killed.

"Kremzug has 70,000 people. Most of them are Jews, but they are not allowed to protect themselves. They are at the mercy of the police and the rable, "when the proclamation of Russian freedom came there was great rejote."

W ARSAW (Russian Poland) Dec. 15.—Many wealthy Jews are leaving this city, owing to raids on their residences by bands of revolutionary co-religionists calling themselves anarchists. The latter invade the houses and flats of rich Jews, demanding large sums at the point of revolvers. In case of refusal, they plunder the premises of jewels and money, and destroy the furniture. The police are so disorganized that they make no attempt to interfere.

One hundred and fifty postal clerks and fifty telegraphers have resumed the work. The strikers threaten retaliation.

spooner replied that the Senate should not have adjourned without acting on the treaty as to ratifying or rejecting it, as the failure had had the effect of leaving the President in a position of santo Domingo to maintain the status quo, to prevent the seizure of her customhouses or the segregation of her revenues. This it was not easy for that republic to do, in view of the pressure from European nations, emphasized in one case by the pressure of a warship. In the face of this condition President Morales had, he said, appealed to President Roosevelt and asked him in his own helpessness, requesting especially that he suggest some honest American for the collection of revenues. These agents, while Americans, had been appointed by the Santo Domingo government. "They were appointed by President Morales and can be dismissed by him." he said, "and the President of the United States has done no more than it was his duty to do."

HOT SHOT FOR SHONTS.

Speaking of Mr. Shonts. Tillman said the had understood that Shonts was to resign as president of the Clover Leaf Road. Did anyone know , whether he had resigned? He appealed to Mr. Alitson, but that Senator said he did not know. Tillman said that he had found Shonts's name in the railway register as still president of the road.

Mr. Hale spoke in very compilmentary terms of Mr. Shonts, expressing the opinion that his selection was a wise one. He was certain that, whether or on to the had resigned from the railroad, he had given his entire time to the canal enterprise.

Tillman said that he was not "gunning" for Shonts nor for any particular man. He had, as he understood, been on the isthmus but twice, and then only for a week at a time, since his appointment.

PRESS AGENT ROASTED. HOT SHOT FOR SHONTS.

PRESS AGENT ROASTED.

Tillman then took up the question of secretary Bishop's connection with the Scretary Bishop's connection with the commission. He said that Bishop had never gone to the isthmus and that any \$2000 or \$300 clerk could perform his services; that would be ample pay even for a first-class newspaper man for such service. He characterized Bishop's work as "a process of hypnotising public opinion," and expressed the opinion that "people entirely innocent would need no defense and would not be so worried as to employ a \$10,000 man to defend them."

The press representatives in Washington may be dirty and disposed to the he said, and it might be a fact hat there had been an organized crusade against the canal, but even if the color of the said, and he expressed confidence has if other methods were adopted all the gnats and mosquitoes that belouded the situation would disappear.

WASHINGTON, Dec. 15.—A report of
the Bureau of Statistics on the sugar

the year 1905 shows that of the \$150,
000.000 worth of sugar brought in during that period, \$59,000,000 worth came
from Hawaii, Porto Rico and the Philipplines. This shows a decided increase
over previous years. The value of
sugar imported from Cuba this year
is also far higher than the value of
the amount imported last year, though
the quantity was about 200,000 pounds
less. In previous years only a very
small quantity of beet sugar was imported, and Cuba again is far in the
lead of all nations in producing sugar

COCKRAN SAYS as he did on this subject. He believed that if Mr. Shonts or Secretary Taft had been responsible for Bishop's employment he had made a mistake. "Journalism," he went on, "is a great estata. At times the press is cruelly unius", but as a rule its purpose is high and beneficent; if the government or any part of it established a press agency the result will be a prejudiced and a selected press, and in case of a corrupt administration, a hireling press."

A resolution by Mr. Carmack instructing the Senate Committee on Naval Affairs to inquire into reports of brutality practiced by hazers upon students at the Naval Academy at Annapolis, with a view to putting a stop to such practices, was adopted, HE'S APPALLED.

Through her attorneys, Hunsaker & Britt, Mrs. Lewis makes a voluminous complaint, setting forth that more than a year ago she was induced to assign to the Dunns her 100,000 shares, in order that they might hold a controlling interest in the company and thus assume the management.

As the difficulties of the company have continued, she alleges, and as there have been no dividends, she wants her shares back again, and declares she made several demands for them, but was refused. She alleges that these shares are worth \$35,000, and that the Dunns are holding onto them so that they may continue the control of the company. \$100,000 Worth of Musical Merchandise at Factory Prices

Christmas gifts can be selected at the Osborn Conservatory of Music Stores that will be useful as well as ornamental and something that will last a lifetime. The Osborn Conservatory of Music and stores handle every article from the smallest trimmings to the highest priced instruments made. We can sell for less than other retail dealers, because we are manufacturers, as well as being the largest buyers of any house in the United States, and buy all goods for spot cash. We conduct all business at less expense on account of using second floors in each city, instead of paying ground floor rents. The business is not conducted by a corporation, where profits would have to be divided among many people; instead the business is owned individually by S. C. Osborn. This is why we can save you at least one-third on any musical instrument or in the Conservatory Department. The Osborn Conservatory of Music and stores have pupils from 10,000 homes in the State of California taking lessons in the different departments. If our customers were not well satisfied, it would have been an impossibility to have built up a business of this size

Alleged Horse Thief.

Detectives Talamantes and Cervantes, the latter a Santa Ana officer, last night arrested José Melendres on a grand larceny charge. He is alleged to have stolen a valuable horse from C. W. Farrer near Monrovia. Melendres was under arrest before, but the fall-ure of the owner of the property to appear necessitated his release.

A handsome fing will be presented the Garvansa Methodist Church and Sunday School, Sunday at 3 o'clock, by the Stanton Woman's Relief Corpa. Her Railroad Work.

Miss Jennie Smith, national railroad
evangelist, will address a meeting at the
First Methodist Church Sunday afternoon, first on the subject of "Healing,"
and will then tell of her work among
the railroad men of the country. She
has devoted her life to the work of
improving the condition, spiritual and
material, of the men engaged in the
operating departments of the great
railroads and has made for berself an
inter-State reputation. She will depart Monday for her home in Wash

general. In part his talk was as follows:

Will Go to Hawail.

Bishop John W. Hamilton and wife will sail today from San Francisco for Hawail, where they will remain for Saveral weeks. Bishop Hamilton is the Methodist resident bishop for the Methodist Resident Sangles for the dedication of the new buildings of the University of Southern California, but the trip to the islands changed these plans. Defense of Jews.

In response to an appeal issued by the Jawish Defense. Association of New York, of which Jacob H. Schiff is the treasurer, a mass meeting will be held at the Temperance Hall, corner Broadway and Temple streets, on Sunday next at 7:39 pm. The object of the meeting is to organize a local branch of the above association, whose purpose is not only to relieve the sufferings caused by the Russian atrocities, but also to furnish the Jewa'in Russia with arms for defending themselves against the brutal attacks of riotous mobs. Rev. Dr. Hecht, Rev. Dr. Isidore Myers, Mrs. Bertha Hirsch Baruch and other speakers will address the meeting.

Say It's a Menace.

There is a prospect of a lively session of the Board of Fire Commissioners this morning when the question of permitting the installation of an electric motor in Longsburry's proposed saw and planing mill at Twentyninth and San Pedro streets is taken up. A committee of owners of property near the proposed mill will be present to meet their protest against the granting of the permit because they be they have the mill will prove a menace to their homes. They charge that political sharp-practice has been resorted to by the applicant but this charge has been tended. The property owners declared an understrable drift in the discussion and came to her feet with dees not believe in foreign missions. There may be such a monstrosity on their real estate and they threaten to take the matter into the courts.

Tried Transem Reute.

J. M. Thompson, a Southern Pacific freman, in attempting to leave his room at the Yosemite ledging-house, No. 115½ South Broadway, last evening by crawling over the transom, slipped and fell through the glass front of the door. He was taken to the Receiving Hospital, where the lacerations of his right leg were dressed. Thompson stated that he had been left alone in his room without his key, and instead of calling the proprietress of the place resolved to make an exit through the transom.

"I have yet to meet the person who does not believe in foreign missions. There may be such a monstrosity on this Coast, but I have never met him: I'd like to sneet him, though I'll not go hunting after him, for I wouldn't want to find one."

John Henry Doughass spoke with the air of an oracle, saying: "You can't sustain a home church without a foreign field, and you can't sustain a foreign field without a home church."

The discussion in the forenoon was on the "Home Field," and last night on "Education." Today the subject will be finances and general business, the convention closing with a consecration service at 3:25 this afternoon.

Huntington's Purchase of Oak Knoll Ranch Starts Excitement—Rumors of Scheme to Shift Business Center. Perhaps New Los Angeles Roule.

The FACTS.

The agitation exists.

The real estate buyers have been gobbling up options on this hypothesis. Oak Knoll ranch is to be opened up business in Pasadena's business district, we can make a new business district where we can run cars both ways at the same time.

Now The Times does not undertake to say how far this proposition has taken shape. It is certain, however, that there have been sudden and exited purchases of real estate on Los Robles avenue in the vicinity of Colorado street, while options on property on the latter thoroughfare, near the function, have been hold at a pronium during the lost few days.

Among the active buyers has been resident Linnard of the Pasadena toard of Trade, who has been busily ding around in an automobile with resident Huntington of the Pacific electric this week.

When approached on the question

In France there are fifteen or twenty physicians are well represented in the doctors in Parliament and in Germany physicians are well represented in the Reichstag. In this country we have neglected the field of politics, and the doctor's place is among his patients and that he should take no part in public life."

In closing his address, which was listened to with keenest interest by the large number of physicians present, the doctor breathed a ray of hope in that the air of mysicry surrounding the profession is constantly lessening.

Don't you know that THE LADIES' HOME JOURNAL never gives a premium to a subscriber, and that it has spent thousands of dollars for twenty years past in advertising the fact that any one offering a premium of any sort with THE JOURNAL may be regarded as a swindler? And yet it goes on year after year, and we keep jailing them. Why are women so easily fooled with a bargain offer?

Isn't it absurd on the face of it to offer THE JOURNAL for a year and a set of dishes, or some other preposterous gift, all for a dollar and a quarter, the regular subscription price? We offer a standing reward for arrest and conviction of these swindlers.

Located two miles from Pacoima. Established in 1797 by the Franciscan Friars. The salubrity of climate and fertility of soil determined the location of this particular mission. It is a fine example of ancient mission architecture.

Looking Forward

PACOIMA is in the very heart of the orange belt of the San Fernando Valley. Oranges from this section took first prize in Portland. Why should not this orange acreage duplicate Ontario and Redlands values in a few years?

PACOIMA is the natural commercial focus of thousands and thousands of acres of fertile lands. Why should there not be a little metropolis here in a few years?

PACOIMA has pure cold mountain water piped to every lot by a superb system of steel pipes. Water is "king." What can

stop the growth of Pacoima?
PACOIMA has a high altitude, a healthy climate and fine soil. Why should Pacoima not be a health center;

PACOIMA has all the natural advantages of Pasadena, Monrovia, Hollywood, Riverside, Redondo, Redlands and Ontario.

Is there any reason why it should not grow?

PACOIMA has a quick Southern Pacific train service. Late next year the Huntington electric lines will be there. Why will not rail facilities do for Pacoima what has been done in other

GIRL NEARLY DEAD IS L. FT BY AUTO.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

R IVERSIDE, Dec. 15.—A working girl, Nora Purdum, lies at the point of death at her home in this city, probably because some inhuman automobile driver left her to her fate last night where she fell in the streets. She is an employé of the Sunset Telephone Company. Last night she quither work at 10 o'clock. Riding to her home, at No. 519 East Tenth street, she took a short cut through the drive back of the Salt Lake Depot.

Just at the point where she turned into Eighth street she was picked up unconscious in a pool of blood which had gushed from her mouth. She lay there about a quarter of an hour, until found by Mr. and Mrs. J. F. Hanna. At that time the girl was very weak, but managed to get into a buggy with assistance.

When the girl reached her house she seemed rational, and helped only by kindly hands under her arms she walked to the door, thanked Mr. and Mrs. Hanna prettily and then proceeded into the house. Before she walked to the door, thanked Mr. and Mrs. Hanna prettily and then proceeded into the house. Before she walked to the door, thanked Mr. and Mrs. Hanna prettily and then proceeded into the house. Before she could explain the nature of her accident she lapsed into unconsciousness, and by the time Dr. Parker arrived the patient was suffering from cerebral morphine before bringing her to this old son, William Ernest, died Tuesday

PAT DIRECT WIRE TO THE TIMES!

SAN FRANCISCO, Dec. 15.—[Exclusive Dispotch.] No new features came to the surface in today's market for fruits, and price changes were of minor importance. The Westlake girl is in as much of a rage as a girl can be expected to get over a wonderful mysterious adorer who rings her up every night after dinner to tell her she is the star portion of his universe—the oyster in his soup, the cherry in his cocktail. Of course, he doesn't say quite that; he uses the same goo-goo dialect they at 60. The family, however, is furious.

"Don't you know who this is? Oh you do. Well tell me. t believe you know. Well guess. Ha, ha, te he—Oh, you mean thing——" and kindred highly intellectual observations—nothing was thought of it.

When this man's voice told her he had seen her angel face in a photographer's window and had sighed away his life until he heard her sing at a concert and thus found out her name, nothing much was thought of it. They all thought it was a joke from some of her young men friends.

But when the unknown voice was heard again next night, and the next night and every night after that, they became frightened and angry.

"It—it's just awful," said the girl yesterday to one of her intimate friends. "He sounds like a Hallie Erminle Rives story."

Every night, the man's fervent plea is that she shall see him just once; he only begs for "just once." 严渊

Last night, the girl, almost in tears turned away from the phone which she had gone to answer.

Her big brother made the stairway lending in two strides and took the receiver from her hand—listened.

The lover at the other end of the hot tingling wire poured out another bunch of Laura Bluejeans Libby talk and wound up begging that he might see her heautiful face for just once.

"My angel." he implored. "May I not see you just once tonight."

"Sure Mike, you can," replied a big grim bass voice at the other end of the ear line. "You can come right out now. I'll be here waiting for you.
